

DISCRETE 2020-2021

DISCRETE 2020-2021 Bergen Nov 29 - Dec 3 2021

Bergen, Nov 29 - Dec 03, 2021

<https://indico.cern.ch/event/868021/>

The topics covered at the DISCRETE series of conferences are:

- T, C, P, CP and CPT symmetries
- Discrete symmetries in the scalar sector
- Discrete symmetries and models of flavour mixing
- Neutrino masses, mixing and discrete symmetries
- Discrete symmetries in cosmology
- Emergence of symmetries from entanglement
- Supersymmetry
- New results from LHC, future colliders and other facilities

Local organising committee:

Trygve Buanes, Gerald Eigen, Jörn Kersten, Per Osland [Chair], Therese Sjursen, Bjarne Stugu, Odd Magne Øgreid

International Advisory Committee:

Luis Alvarez-Gaume (Stony Brook & CERN), Adrian Bevan (Queen Mary University London), Andrzej Buras (Munich), Francisco del Aguila (Granada), Jonathan Ellis (CERN & Kings College London), Domènec Espriu (Barcelona), David Hitlin (Caltech), Cecilia Jarlskog (Lund), Smaragda Lola (Patras), Antonio Masiero (Padua), Hitoshi Murayama (Berkeley), Keith Olive (Minnesota), Antonio Pich (Valencia), Apostolos Pilaftsis (Manchester), Werner Porod (Würzburg), Mariano Quiros (Barcelona), Fabio Zwirner (Padua)

Steering committee:

G. Branco, J. Kalinowski, J. Marton, N.E. Mavromatos, V.A. Mitsou, M.N. Rebelo [Chair], E. Widmann
